

MHT SERIES

HEAVY CAPACITY telescopic handlers

SUCCESS THROUGH IMAGINATIVE POWER

MANITOU, the world's largest manufacturer of all-terrain material handling equipment, began its roots in a family tradition of innovation and imaginative power. For generations, the Braud family has dedicated themselves to creating innovative products for the lifting and handling markets.

Manufacturing its first truck in 1957, MANITOU is a pioneer in the rough terrain forklift market. By responding to market trends, MANITOU offers a complete line of rough terrain handling equipment adapted to the specific needs and challenges of each industry.

The long history of reliable, relevant equipment has led to more than 500,000 MANITOU GROUP machines sold to more than 120 countries. This worldwide presence is backed up by a MANITOU dealer network staffed with trained mechanics and sales specialists to help you with your material handling requirements.

SUPERIOR STRENGTH

The MANITOU *MHT Series* heavy capacity telescopic handlers are designed to handle the most demanding jobs in the most extreme conditions.

These heavy-duty machines have the power and precision necessary for work in the mining, quarrying, large-industrial, infrastructure, recycling, and construction industries. The MHT Series heavy capacity telescopic handlers offer a wide-range of accessories designed and customized for multiple applications providing an array of solutions on the jobsite.

MHT 1490

20,000 lbs. (9072 kg) lift capacity
46' (14 m) lift height
176 hp (129 kW) FINAL Tier IV
Standard Stabilizers

NEW!

MHT 10130

28,000 lbs. (13000 kg) lift capacity
31'6" (9.62 m) lift height
176 hp (129 kW) FINAL Tier IV

MHT 10180

40,000 lbs. (18000 kg) lift capacity
31'7" (9.63 m) lift height
176 hp (129 kW) FINAL Tier IV

NEW!

MHT 10230

50,000 lbs. (23,000 kg) lift capacity
31'8" (9.65 m) lift height
176 hp (129 kW) FINAL Tier IV

COMPETITIVE ADVANTAGES

HEAVY-DUTY LIFTING

The MHT Series are built for heavy-duty work in rough terrain applications. These machines are designed with a strong rectangular two-section and three-section boom structure, handling a capacity range from 20,000 to 50,000 lbs. (9,072-23,000 kg).

JSM JOYSTICK CONTROLS

Machines are operated with the Manitou single joystick JSM (Joystick, Switch and Move) controls, where machine functions as well as Directional Drive are located in one place for easier access and maneuverability.

ATTACHMENT SAVVY

Attachments are a key component to the full performance of the MHT Series and to utilize it for many applications including; Quarries, Mining, Energy, Utility, Heavy Construction, Steel Structures etc. Some of these attachments are: Forks, Winch, Tire Handler, Cylinder Handler, and Platforms.

LOAD MANAGEMENT & VISIBILITY

Load Moment Systems and Attachment Recognition System (E-RECO) are offered on the MHT Series to ensure safety on the jobsite and reduce risks of incidents. The low boom design, large windows on all sides and glazed roof panel allow for 360 degree visibility from the cab.

COMFORT IS STANDARD

Spacious, easy to access enclosed ergonomic cab. Comes with heat and air conditioning, soundproofing materials to lower noise levels, adjustable steering column and suspension seat.

PERFORMANCE

POWER and PRECISION

TURBO-DIESEL ENGINES

The MHT Series machines are powered with Mercedes-Benz 176 hp (129 kW) diesel engines, providing 553 ft. lbs. (750 Nm) of maximum torque for heavy handling.

HYDROSTATIC TRANSMISSION

Coupled with a two speed gearbox, this system provides optimum power and control of travel for precise placement of the machine.

LIFT CAPACITIES UP TO

50,000 lbs.
[23000 kg]

1490	20,000 lbs. (9072 kg)
10130	28,000 lbs. (13000 kg)
10180	40,000 lbs. (18000 kg)
10230	50,000 lbs. (23000 kg)

LIFT HEIGHTS UP TO

46' 0" [14m]

1490	46' 0" (14m)
10130	31' 6" (9.62m)
10180	31' 7" (9.63m)
10230	31' 8" (9.65m)

HIGH GROUND CLEARANCE

1490/10130/10180	17" (0.44 m)
10230	19" (0.49 m)

DURABLE CROSS SECTION BOOM

Rectangular boom design with components protected inside. Built for heavy loading, lifting and to weather tough working conditions.

LOW BOOM DESIGN = **360°** VISIBILITY
ON ALL MODELS

MACHINE HEIGHT

1490/10130/ 10180	9'1"
10230	10'

CAPACITY AT MAXIMUM FORWARD REACH

14,000 lbs. [6400 kg]

1490 7,700 lbs. (3493 kg)

10130 5,500 lbs. (2500 kg)

10180 9,900 lbs. (4500 kg)

10230 14,000 lbs. (6400 kg)

FORWARD REACH TO

31' 0" [9.45m]

1490 31' 0" (9.45 m) 10180 18' 3" (5.56 m)

10130 16' 11" (5.17 m) 10230 19' 0" (5.80 m)

4 WHEEL DRIVE AND 4 WHEEL STEER

Four wheel drive enables rough terrain performance while operating on soft ground, towing a trailer, or other working applications that require high traction to get the job done.

Four wheel steer enables three different steering modes; **All Wheel**, **Crab**, or **Front Wheel**, to provide maneuverability depending upon the job travel, task, and location.

SHORT TURNING RADIUS

13' 2" [4.0m]

1490 13' 2" (4.0 m)

10130 17' 6" (5.34 m)

10180 18' 0" (5.5 m)

10230 17' 9" (5.4 m)

FRAME LEVELING SYSTEM

Tackle rough or sloping terrain with ease. Simply push a lever to keep your load horizontal.

OPERATOR'S CAB

■ CONTROLS ■ ERGONOMICS

**“Adjustable Cabin
for Operator Comfort”**

■ SPACIOUS DELUXE CAB WITH HEAT & A/C

Fully enclosed cab with wide door for easier access. Includes standard features such as air conditioning, heat, adjustable cloth seat and arm rest with JSM joystick controls, ventilation outlets, sun visor, roof screen and electric window.

■ INTERACTIVE DASHBOARD

The Dashboard holds a digital display providing notifications for; fuel level, speed, hour meter, travel direction, engine temperature, wheel alignment, load placement, load level, warning lights and maintenance reminders.

■ ADJUSTABLE; SEAT, ARMREST WITH JSM JOYSTICK CONTROLS AND STEERING COLUMN

■ LOW NOISE LEVELS

Cab is soundproof down to 80 dB for operator comfort. (82 dB for the MHT 1490)

■ INTUITIVE CONTROLS

Controls and switches are positioned in groups according to machine function for easy operation.

■ CAB AIR FILTER

Clean air recycles in the cab providing an ideal operator environment.

JSM CONTROLS

The MANITOU exclusive Joystick Switch and Move (JSM) all-in-one joystick system allows safe, fatigue-free operation. The left hand remains on the steering wheel and the right hand controls **directional drive, boom** and **hydraulic** functions with one ergonomic joystick.

Label Function

A	Lower the Boom
B	Tip the Attachment Plate
C	Raise the Boom
D	Tilt the Attachment Plate
E	Forward, Neutral, and Reverse Shift
F	Roller for Attachment Function (100% proportional movement)
G	Roller for Extending and Retracting the Boom (100% proportional movement)

PROTECTION

LOAD MANAGEMENT

LEVEL CONTROL SCREEN

The level control display screen indicates the level of inclination of the machine in the lateral or longitudinal direction. When the machine is level the dot will turn from red to green.

E-RECO® ATTACHMENT LOADING SYSTEM

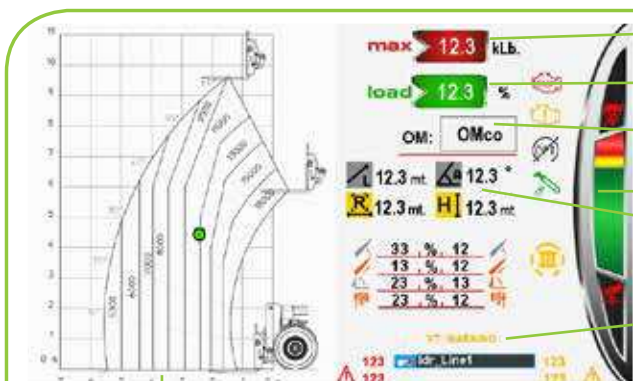

Decrease operator guesswork with the Manitou E-RECO, attachment recognition system. This system will automatically detect which attachment has been properly installed to the machine, and will assign the appropriate load chart requirements to maximize machine productivity.

MANITOU LOAD MOMENT SYSTEM/3B6

Continuously analyzes the position of your load in accordance with the machine's work configuration. The system restricts the working area based on the accessory used and load being handled.

SAFE, RELIABLE BRAKING

Oil-bath multiple-disc brakes are integrated into the axles for precise machine stopping.

MAXIMUM PERMITTED LOAD

WEIGHT OF THE LOAD

DYNAMIC LOAD CHART

CAMERA VIEW, AVAILABLE ON THE MHT 10130, MHT 10180, AND MHT 10230

Perform close maneuvers with standard rear and side cameras on the MHT 10130 through the MHT 10230 models, with an optional boom tip camera for increased visibility.

SERVICEABILITY

SIMPLIFIED ACCESS

The engine is positioned to the right side of the chassis allowing for easy access from three sides. The large engine hood is spring loaded and automatically stays up during servicing.

EASY-OPEN ACCESS

Engine hood lifts out of the way and lower panel drops down for full open access to major components.

COOLING LIQUID

AIR FILTER

FUEL FILTER

ENGINE OIL FILLER AND FILTER

FAN PROTECTION GRID

BATTERY CUT-OFF

BATTERIES EASILY SLIDE OUT

ELECTRICAL CIRCUIT PROTECTION

The entire electrical installation and all components (printed circuit boards, fuse boxes and connections) are rated IP67, ensuring that they are dust free and watertight.

AUTO DIAGNOSIS

Displays the state of the machine on the screen. The faulty component is displayed on the screen in order to minimize machine downtime.

FUEL, OIL & DEF TANKS

Fluid tanks are placed under the cab door, in an easy accessible location.

Crab Steering Mode Applied

DOMINATE YOUR APPLICATION

A wide range of attachments are available, ideally suited to increase your **MHT's** utilization, versatility and productivity. Whatever the job, we've got a solution to maximize your handling requirements.
